

## Safety Solutions

### 001. Why ValSource for Safety?

Proactive planning matters. ValSource Safety Solutions can swiftly plan, direct, and implement an effective safety program to ensure a safe, healthy, and accident-free project and work environment.

We are skilled in corporate safety and risk management, guaranteeing compliance with all applicable federal, state, county and local safety-related regulations.

ValSource Safety Solutions combines expert consulting and safety services with PIMSHQ - a pioneer in the field of safety management software. This comprehensive solution provides clients with tailor-made strategies that help create a more proactive and effective safety culture among their employees.

### 002

#### The Process

- Through assessments, training, and data analysis, ValSource specialists plan, direct and implement successful safety programs that ensure companies are fully equipped to navigate the evolving landscape of safety regulations and best practices.
- With the addition of PIMSHQ innovative software, ValSource Safety Solutions integrates people, processes, and technology to form a holistic approach to safety.
- Together, ValSource + PIMSHQ helps organizations create a positive safety culture where every individual is engaged and working proactively to reduce incidents and solve repetitive issues together.

### 003

#### Phase 1 - Knowledge Gathering

- ValSource Safety Solutions works with your leaders and specialists to gain an understanding of your organization's safety program by using Environmental Health and Safety (EHS) gap and culture assessments.
- With this information about the strengths and areas in need of improvement, ValSource Safety Solutions then develops options and a path forward for your consideration.

#### Phase 2 - Tailored Solution Rollout

- Using the results of the assessment, ValSource Safety Solutions provides customized training courses, learning events, and engaging approaches to reinforce EHS concepts that contribute to a successful safety culture.
- Our experts can be guides and support for your EHS team with the goal of sustainability.

## Phase 3 - Integration of PIMSHQ

- With our unique safety management software, PIMSHQ moves your organization from simply reacting to incidents to engaging your people so they can identify potential problems in real-time.
- This expands your organization's EHS vigilance by empowering your workforce to identify hazards, reduce risks, and reinforce the critical principle that safety is everybody's responsibility.
- The **PIMS Safety** application provides clients with access to documentation and critical areas needing attention from a safety perspective on-site including:
  - Safety Tap-ins for Workforce Engagement
  - Safety Documentation
  - Pre-task Planning and Management
  - Incident Investigations
  - Audits/Evaluations/Inspections/Permits
  - Risk Management
